CONTENTS

Preface

Chapter I  Membrane-Cytoskeletal Interactions in the Regulation of Neuronal Migration in the Adult Brain  
Robert D. Beech

Chapter II  Adult Stem Cell Homing Mechanism and Delivery Strategy: Acute Versus Chronic Myocardial Infarction  
C. Wan, R. Atoui, J. Luo, D. MacDonald, B. Burstein, RC-J. Chiu and D. Shum-Tim

Chapter III  Embryonic Stem Cells: Establishment, Maintenance, and Differentiation  
Hossein Baharvand

Chapter IV  Pain Care and Stem Cells: The Effect of Political Ideology on the Patient Centered Paradigm of Health Care  
Anthony J. Eksterowicz and Nancy B. Eksterowicz

Chapter V  Multipotent Stem Cells from Skin Dermis: Basic Biology and Therapeutic Implications  
Chunmeng Shi, Ying Zhu, Yongping Su, Chengji Luo and Tianmin Cheng

Chapter VI  Stem Cell Therapy for Type 1 Diabetes Mellitus  
Christopher J Burns, Helen Milne, Peter M Jones and Shanta J Persaud

Chapter VII  Cell Therapy with Bone Marrow-Derived Stem Cells for Cardiac Repair or Regeneration  
Young-sup Yoon
